Step 8:

Drag and drop the required files into the “Drop Files Here” space or click the “+ Add Files” tab to browse manually.

Ensure all image, structure and plan files are in DICOM format prior to transfer.

Permitted file extensions for transfer are zip, pdf, doc, docx and dcm.

Step 9:

Once the message and files are ready for transfer, click Send.

Thank you for transferring the Photon plan and dose files.

The Australian Bragg Centre for Proton Therapy and Research (ABCPTR) team will generate a comparative planning report and will be in touch shortly to organise the final MDT panel review.
